

Franly Peña Cosme

Full Stack Developer | Freelancer | IT Specialist | Software Engineer

Dominican Republic

franlya.96@gmail.com | linkedin.com/in/franly96

SUMMARY

Software Engineer specialized in full-stack development, building scalable, maintainable end-to-end solutions with React, TypeScript, .NET Core, and Node.js. Over the past 12+ months, has integrated AI-assisted development tools — Claude Code, GitHub Copilot, and Codex — into daily workflows to accelerate delivery and improve code quality. Continuous learner, motivated by new challenges.

TOP SKILLS

Front-End Development • GraphQL • Amazon Web Services (AWS) • React & TypeScript • Node.js & .NET Core • AI-Assisted Development (Claude Code, GitHub Copilot, Codex)

EXPERIENCE

Cobalto Consulting

Full Stack Developer | May 2025 - Present (1 year 3 months) | Dominican Republic

- Responsible for designing, programming, testing, and maintaining software applications and systems.
- Works closely with developers, designers, and stakeholders to create scalable, efficient, and easy-to-use solutions that meet business needs.
- Applies AI-assisted development tools (Claude Code, GitHub Copilot, Codex) to speed up implementation and improve code quality.

FullStack Labs

Full Stack Developer | August 2023 - April 2025 (1 year 9 months) | Dominican Republic

- Implemented a new module to help customers create dynamic business websites.
- Improved development time by 20% by creating a modular and reusable React & TypeScript front-end components library.
- Optimized state management, cutting unnecessary re-renders and boosting performance.

Techstack: JavaScript, Ember.js, Node.js, AWS S3, EC2, GitHub Actions

Additional skills: Scrum, Jira, Figma

GBH

Software Engineer | August 2020 - October 2022 (2 years 3 months) | Dominican Republic

- Responsible for designing, developing, supporting, and installing software solutions.
- Improved application performance by 30% by fixing unoptimized components and pages.
- Implemented a PDF contracts viewer allowing users to preview PDF content, reducing contract review time by 50%.

Techstack: React.js, TypeScript, Redux, Node.js, AWS S3, EC2, MySQL, Docker, GitHub Actions, .NET Core

Additional skills: Scrum, Jira, Unit Testing, Figma

Intellisys D. Corp.

Software Developer | June 2018 - September 2020 (2 years 4 months) | Dominican Republic

- Optimized search bar logic, enhancing UX with faster performance, better filtering, and at least 20% more functionality.
- Maintained a coverage percentage above 70% in application unit tests.

Techstack: React, Node.js, TypeScript, .NET, JavaScript, Angular, Azure, Git, Jest, MongoDB

Additional skills: Scrum, Jira, Testing
